

# Logo - ideas

A.T.C Solutions Ltd.  
Access Transition Care - Solutions

key – it's strong image and demonstrate rather accessibility to place like home or something you own then accessibility to learn your skills or develop yourself

Maybe we should build this around 'accessibility' and 'caring' icons – could be hands , open circle, people in a background , or only drawing outlines  
Font should be also quite soft. Doesn't need to be circle – but there are few words – easier to build in the circle (closed logo).
