1. Colours are established as per below (this image is taken from my website), pale green, brighter green and mauve.

   The photo to the left is a temporary image sitting in the place where I would like the creative image to sit. I am looking for a logo that incorporates the wording below and an image
   For info, on the website:
   NEO font is Spinnaker (size 72)
   PERINATAL font is Open Sans (size 30)
   PREPARING YOU….font is Open Sans (size 15)

   I do want neo perinatal in lower case and all wording in the same relative sizing relationships as below

   What I need is a jazzy beautiful image to sit on the left to pull the rest of the logo together, one that fits my ethos

   Below is an image I found online and fell in love with. I would like an image identical to this in my chosen colours (above) but the swirls in the back ground are not essential.

   I would like to somehow include a reference in the image to the woman's partner/friend/supporter.

   Nothing too masculine because in reality some partners coming to my classes are not necessarily male.

   It crossed my mind about possibly including an arm around her shoulder or holding her hand, or silhouette of someone in her background

   And so I got stuck there with ideas, let alone the technical knowhow of how to progress!
